Hellllooooo

Just added this file because I felt that you need to relax and recharge your energy.
You are working hard since minute 1 just remember that the exams are almost finished, and you will have a lot of free time to enjoy:)
Remember that your hard work will pay off
I know it's hard to study and work at the same time, just don't stress yourself and everything is going to be ok.
Keep up the good work and never give up. You are amazing!
Proud of you
